

We want to hear about your experiences of continuity of care.

“Continuity of care in pregnancy is when a woman is supported by a midwife or a small team of midwives that she gets to know and with whom she is able to build a relationship of trust. This relationship starts in early pregnancy and continues from the antenatal phase, in labour through to the postnatal period”

**If you have any questions about the survey, please contact:
betterbirths@lincolnshireeastccg.nhs.uk**

Thank you

1. Have you had a baby in the last year?

Yes

If no, when did you have your baby?

2. Where did you deliver?

Lincoln maternity unit

Homebirth

Boston maternity unit

Other unit, please state

3. Was your care midwife led or consultant led care?

midwife led care

consultant led care

4. Did you see the same midwife during your pregnancy?

Yes

No

5. How many different midwives did you see?

6. Did you have the same midwife caring for you throughout your labour?

Yes

No

7. How many different midwives did you see during your labour?

8. Did you see the same midwife during the postnatal period?

Yes

No

9. How many different midwives did you see in the postnatal period?

10. "Continuity of care in pregnancy is when a woman is supported by a midwife or a small team of midwives that she gets to know and with whom she is able to build a relationship of trust. This relationship starts in early pregnancy and continues from the antenatal phase, in labour through to the postnatal period"

Do you feel you received continuity as explained above and if not do you feel it would be beneficial?

11. Any further comments?
